1. Could you describe in few words your Master's studies at Centrale Nantes and its strengths? And why did you choose Centrale Nantes?

My experience in ECN was just awesome. A very new way of teaching for me, all the academic courses, lab works and practical trainings were very well arranged, the interaction between students and professor was very friendly and it helps me a lot in every possible way of learning new things. Ecole Centrale de Nantes places great importance in shaping the international future of Centrale graduates. I have thoroughly enjoyed and benefited from being a student at Ecole Centrale de Nantes.

2. What about the campus life at Centrale Nantes?

Many students enter college expecting good times, knowledge, friendships, and a new sense of direction and Ecole Centrale have given me the opportunity to get all that I could expect. With well-talented faculty and students from all over the world, the iconic Ecole Centrale de Nantes campus is filled with unique perspectives, opportunities, and events. All the expectations I had were not only met but were exceeded. I truly believe my stay at Ecole Centrale de Nantes was something that cannot be matched.

3. And now, what's your current position? And how did Centrale Nantes help you to get there?

After gaining the very useful knowledge about computational fluid dynamics and hydrodynamics at Ecole

Centrale de Nantes, I succeeded in getting an internship in delta Marine (Turkey) where I have been working on ship hydrodynamic applications. For sure, the courses offered by Ecole Centrale de Nantes have helped me a lot in my career plan. Currently, I am completing my 3rd semester at ZUT in Szczecin, Poland.

4. What's the advice you would give to someone who would like to apply for Centrale Nantes?

Not that you really need an excuse to fly to a far-off country in order to gain a world-class education as a super-cultured international experience, but there are many other reasons you will find, why staying at Ecole Centrale de Nantes worth it, like meeting a diverse range of people, making lifelong friends, discovering the city with its rich heritage, self-reliance learning, a great knowledge of different culture, gaining life experience to explore and increase the international job prospects.

5. Other comments?

Ecole Centrale de Nantes was an incredible place to go as an exchange student. I have so many memories and have made so many friends from around the world. The overall student experience has benefited my personal development hugely. Thank you very much for these amazing semesters.
